

Details of the Competition: Draw me a Neutrino

What to do? We need you to draw a neutrino! *How does it look like? Which shape, colour, and texture does it have? How do you picture it in your mind?*

Who all can participate? The competition is divided in three categories:

- If you are a budding scientist, you will imagine how an electron neutrino like is.
- If you know that physics is a combination of cool equations and exciting experiments plus a bit of headaches (let's be honest, it happened to all of us), you are in charge of drawing a muon neutrino
- If your last science lecture was already some time ago (no worries, we won't ask how long), we invite you to tackle the tau neutrino.

(Such categories correspond, respectively, to: children, teenagers and adults.)

Important Point:

- ✓ Be sure to respect the theme of your age group!
- ✓ Group '**electron neutrino**': pre-schools and primary schools
- ✓ Group '**muon neutrino**': secondary schools
- ✓ Group '**tau neutrino**': adults

How to Participate?

<http://wos.ba.infn.it/index.php/participation-form-4/>

Prizes:

If you are a winner of the international contest:

- You will be entitled to give your name (or propose a name of your choice) to one of the under-sea sensors of KM3NeT.
- Your drawing will be part of the exhibition of *Art&Science across Italy* in fall 2020 at the National Archaeological Museum in Napoli (Italy).
- You will receive an iPad allowing you to check KM3NeT events!
- Furthermore, your drawing may be used on KM3Net website, SPACE India website, Universe in the School website and social media accounts.

Deadline: Be sure to send us your drawing so that we receive it before June 30!

Important Points:

- ✓ One submission per person. You will have to pick your best idea to be sent to us.
- ✓ Be original, don't copy, we will love your own work better than any other one.
- ✓ While mentioning your school name during the registration write SPACE India.

For e.g.: Bal Bharati Public School, Pitampura-SPACE India.

Looking forward to your participation!
